## Summary

Results oriented professional with extensive Healthcare IT experience in support and Project management of Ancillary Applications - Pharmacy, Radiology, Cardiology, Laboratory and Pathology etc.

## Core Competencies

- Healthcare IT
- ITIL Foundations
- IT Governance
- Project Management
- EMR Integration
- Change Management
- Reporting & Analytics
- Application Optimization
- Client Relationships
- Business Continuity
- Statement of Work (SOW)
- IT Policies and Procedures

## Professional Experience

### **KFMC, Riyadh, KSA - Part Time Adviser/Consultant - June 2018 to Oct., 2022:**

Assisting and Advising Epic Implementation Project Team. Escalation of issues and mitigation plan to the Leadership. Assisted in the creation of RFP, Statement of Work and worked with the vendor for an implementation timeline. Project is completed and in training stage with the first use go live in January, 2021. Also, assisted in the creation of Post implementation Policies and Procedures, Business Continuity Procedures, Organization Chart, Job descriptions and Service Level Agreements.

### **Harris Health System, 2525 Holly Hall, Houston TX 77054, Director of IT Pharmacy - June 2014 to Dec., 2016**

Provide direction to the technical support team for Clinical/Ancillary Pharmacy Applications. Harris has 3 Inpatient Pharmacies, 16 CHP Pharmacies, 2 Infusion units, 10 School based Clinics and several homeless shelters. Pharmacy fills 2.3 Million prescriptions per year.

Manage Support for Pharmacy in the areas of Inpatient, Ambulatory, Inventory, and Purchasing/Buying.

Manage and Support Central Fill Pharmacy for all rest of the 16 CHP Pharmacies.

Manage 340b purchasing and compliance

Manage FDB Loads for all Drugs including C I, II, II, IV and V.

Manage all operational Epic projects within the area including resource allocations, budgeting etc.

Manage website where I have documented all internal policy and procedures, Standard Operating Procedures (SOP), and several monitoring tools to monitor interfaces.

Successfully integrated EPIC with all Clinical Applications i.e. PACS, Radiology and Cardiology results and images, Lab results, Pharmacy Profiles, Mammography results, GI results and images, Pulmonary results and images, Telemetry data from ICUs and DigiSonics OB results and images. I have extensive knowledge in HL7 and DICOM interface standards.
